CLINICAL REPORTING PORTAL (CRP)

How To Sign Up For A Clinical Account

Stay informed with 24/7 access to referral status and progress reports for all your patients throughout the Breathe Better Rehab program.

Schedule Training Session

1 Visit The Portal

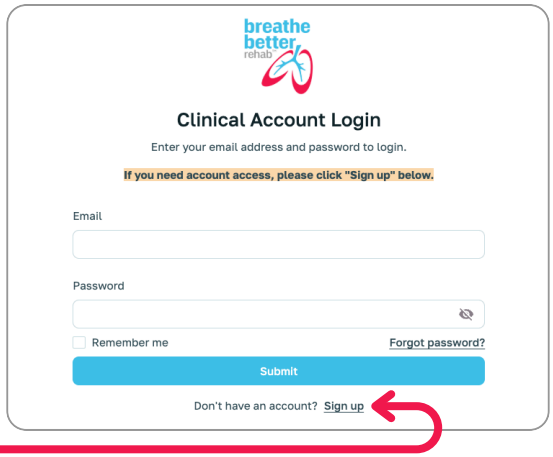

Go to the URL: **clinical.breathebetter.rehab**

2 Request An Account

Click “Request A Clinical Account.”

3 Begin Registration

Click “Sign up” to open the registration form.

4 Complete The Account Access Form

Enter the requested information, including the referring provider(s) whose patients you need access to.

How Patient Access Works

Access is granted by referring provider, not by individual patient.
Once approved and connected to your assigned provider(s), you can view their referred patients.

5 Wait For Account Approval

We’ll review your request and notify you if your account access is approved. In some cases, we may contact you to verify your identity and confirm your access needs.

HIPAA NOTICE: Clinical Accounts are for individual use only. Do not share your login credentials with others. If another member of your team needs access, please have them sign up for their own individual Clinical Account.

Schedule CRP Training Session

Scan the QR Code in the upper right to request a training session and see how our Clinical Reporting Portal helps your team track referrals, monitor patient participation, and access progress reports.
